## ***WHAT DO YOU WANT TO CHANGE?***

We live in a world where inequality, discrimination, and violence unfortunately exist. We also live in a world full of people working to create change. Some are working to make sure everyone has a place to call home, have access to free healthcare, and an income to take care of themselves and their loved ones. Others are helping to ensure we live in safe and healthy environments and be a part of a beloved community free of violence and harm. And then there are those who are organizing to ensure young people have access to quality education, opportunities to make and share art, conduct experiments, create music, and engage in sports. What do you want to change? What type of world do you want to live in? How do you want to protest?
